QLD	0	0	0	0	0	0
TOTAL	1012	998	14	42	96.07%	2.87%

**WHAT ARE THOSE NUMBERS
TELLING US?**

HIGHLIGHTS

1. Overall fill rate increased from **96.07%** to **98.62%**.
2. Unfilled bookings reduced significantly from 42 to 14 (**Note:** *Points 1 and 2 were also influenced by the lower overall volume of bookings posted*).
3. Educator cancellations decreased by 31%, improving shift reliability and operational stability.
4. We significantly surpassed the booking volume from **April 2025**, increasing from **690 filled shifts** to **998 filled shifts** in **April 2026**. This represents an increase of 308 bookings, reflecting a 44.64% year-on-year growth in filled bookings.

Metrics	March 2026	April 2026	Difference
Bookings Placed	1,070	1,012	▼ 58
Filled Bookings	1,028	998	▼ 30

LOWLIGHTS & OPERATIONAL CHALLENGES

Several external and operational factors impacted overall booking demand and workflow throughout April :

- Public Holidays on April 3rd and April 6th - No bookings placed
- School holiday periods impacted demand across:
 - VIC: 3–17 April
 - SA: 11–26 April
- Temporary shutdowns across several Edge locations reduced booking requirements:
 - Edge Gawler
 - Edge Elizabeth
 - Edge Munno Para West
 - Edge Flagstaff
- High inbound spikes around 9:00 AM AET increased operational pressure on shift allocation management.
- High numbers of emails added additional workload and impacted response management efficiency.

MARCH 2026 VS APRIL 2026

State	Bookings Placed	Bookings Placed in March	Filled	Filled in March	Unfilled	Unfilled in March
VIC	490	514	488	509	2	5
SA	552	556	510	519	12	37
ACT	0		0		0	
QLD	0		0		0	
TOTAL	1012	1070	998	1028	14	42

Following the closure of four centres in SA, the booking volume was impacted to some extent. However, when comparing the figures from March and April, the booking volume in VIC was unexpectedly lower (Which is a result of the 2 public holidays).

ACTION PLANS

1. Continue proactive educator availability checks, particularly before peak booking periods.
2. Strengthen backup educator pools to support urgent and same-day bookings.
3. Continue reinforcing attendance expectations and commitment standards during booking confirmations.
4. Prioritise favourite and regular educators to maintain strong centre satisfaction and fill performance.
5. Monitor educator cancellation trends and provide coaching where required.
6. Streamline email management and internal prioritisation processes to improve operational efficiency.
7. Maintain proactive communication with temporarily closed centres and prepare workforce coverage ahead of reopening periods.

ONBOARDING TEAM

There are **3 key areas** we will review to strengthen our understanding of onboarding performance and the outcomes impacting the company.

Highlights

MONTHLY OVERVIEW

APRIL 2026!

WHAT ARE THOSE NUMBERS TELLING US?

1. Massive Drop-Off After Vetting :

- VIC: 478 vetting → **only 45 activated** (9.41%)
- SA: 111 vetting → **only 12 activated** (10.81%)

2. A high number of applicants moved to “**Not Interested**” status :

- SA: 45
- VIC: 43

*Most of the educators **didn't answer or respond** to our phone calls, and **some of them are not qualified**.
Mostly because they're students.*

3. A high number of applicants moved to “**Do Not Use**” status :

- **78 candidates** were moved to “Do Not Use” status
- **67 Male educators** were moved to “Do Not Use” status

With the ads we have posted, we have attracted a lot of applicants that doesn't have any qualifications at all, or isn't qualified.

HIGHLIGHTS

FIRST SHIFT CONVERSION :

- 1) Not all activated educators completed shifts immediately.
- 2) Around 40–50% secured first shifts quickly
- 3) Others are sitting idle post-activation
- 4) Fast activation-to-shift turnaround (1–5 days) for engaged candidates
- 5) Out of 44 newly activated candidates in Victoria, 10 of them took the shift.
- 6) Out of 12 newly activated candidates in Adelaide, 9 of them took the shift

OPERATIONS

01 Highlights

02 Lowlights & Challenges

03 Action Plan

HIGHLIGHT

1. The 5 new team members have been settling in very well, which we believe will greatly benefit our workflow in the future.
2. **Mary** – Lorie and I have been training and monitoring Mary over the past three weeks, and we're very pleased with her progress. While there are still some areas for improvement, we believe she is a great fit for the role.

MONTHLY SUMMARY

LOWLIGHT & CHALLENGES

1. As onboarding continues to progress, the workload within the team has increased significantly, particularly with onboarding-related emails and onboarding return calls in the morning.
2. We have noticed an increase in return calls related to onboarding during the morning, which has created additional pressure for the booking team, particularly during peak morning periods.
3. More educators are submitting their compliance documents via email instead of uploading them directly through the app, which has added additional administrative work for the team. The growing volume of onboarding emails has been challenging to manage efficiently.
4. With the new portal still in progress and ongoing system issues, I continue to find the situation quite challenging, despite most escalations already being raised with Prince.
5. We have recently encountered issues where educators cannot be assigned to certain centres, which has created additional pressure on the team. I will ensure that all outstanding issues are escalated by next week.

ACTION PLAN

In Progress Tasks – 3 Pending

1. Workforce Registry Data – 15 May 2026

VIC – Jane and 4 new consultants

SA – Sophia

2. Child Safety Training (GECCKO) – 1 July 2026

15 May 2026 – We'll be able to identify how many educators have and don't have the documents uploaded, and we'll do the follow-up with our Active Engage educators to upload the document (If they haven't done it).

Email Reminder – will be sent to all our Active Educators weekly, on Friday.

July 1st – We'll make the document mandatory on our portal. Those who don't have the document uploaded will not be able to see or accept shifts. This is to put pressure on the educators and reduce the pressure on our end.

3. App & Portal Related – 22 May 2026

I believe we have been able to identify most of the portal issues, and approximately 90% of them have already been escalated to Prince. I will finalise the progress review on May 22nd and provide Liam with an update on whether we are ready to shut down the old portal.
